

OUR PHILOSOPHY OF CARE AND PAYMENT

Providing high quality care is the goal of our practice.

As a courtesy to our patients, we will contact insurance companies for benefit information. We will then estimate the amount insurance will pay for a procedure and advise the patient of their portion before the appointment. **This co-pay is due at the time service is rendered.** Please keep in mind this is only an ESTIMATION. The actual amount owed may be greater or less, due to individual plan limitations and exclusions. **In the event insurance does not pay for any reason, the patient will be responsible for the full fee.**

If a patient will not be using dental insurance, payment in full is due at time of treatment. We accept cash, check and major credit cards. For those who require a payment plan, we offer CareCredit®. Once approved, a patient will be able to spread payments over time while starting treatment today. Applying for CareCredit only takes a few minutes and there is no fee to apply.

If a balance remains on the account after 90 days, an interest charge of 15% will be applied to the amount due. Once the account is turned over to collections, the patient agrees to pay all costs of collections, including but not limited to, reasonable attorney's fees.
